Biography of a tenement house : an architectural history ...

A tenement is a type of building shared by multiple dwellings, typically with flats or apartments on each floor and with shared entrance stairway access, on the British Isles notably common in Scotland.In the medieval Old Town, in Edinburgh, tenements were developed with each apartment treated as a separate house, built on top of each other (such as Gladstone's Land).

Tenement - Wikipedia

The Jewish immigrants that flocked to New York City's Lower East Side in the early twentieth century were greeted with appalling living conditions. The mass influx of primarily European immigrants spawned the construction of cheaply made, densely packed housing structures called tenements. They were built on lots that measured 25 feet by 100 feet. Noted New York architect Ernest Flagg (1857-1947) believed that, "The greatest evil which ever befell New York City was the division of the ...
