Somalia's history of conflict reveals an intriguing paradox--namely, many of the factors that drive armed conflict have also played a role in managing, ending, or preventing war. For instance, clannism and clan cleavages are a source of conflict--used to divide Somalis, fuel endemic clashes over resources and power, used to mobilize militia, and make broad-based reconciliation very difficult to achieve.

Somalia's collapse was hastened by the ending of the Cold War. As Somalia's strategic importance to the West declined, the foreign aid that had sustained the state was withdrawn. Without the resources to maintain the system of patronage politics, Barre lost control of the country and the army. In January 1991 he was ousted from Mogadishu by ...

Conflict In Somalia Drivers And Dynamics

Abstract Somalia is a country locked in a complex conflict which has dragged on for almost three decades, displacing millions and leaving hundreds of thousands dead. The causes of the conflict are numerous and interrelated. This makes resolving the conflict that much more complicated. The situation is made worse by policies aimed at addressing the conflict which are often unclear ...
