The RSMeans Square Foot Costs Book, which compiles building cost data according to these divisions, is a widely used resource for developing cost estimates based on costs per square foot. Contractors who are bidding for a job will create a document called the bill of quantities, which is an itemized list of the work and materials required for a construction project.

The BCIS Location Indices have become increasingly volatile and BCIS regularly receives queries about the change in location indices for one region or another. An ideal location index would show the current location differences for every location in the UK- but BCIS is constrained by the data available to calculate these location indices, which are projects indexed for its tender price indices.
