Product Design For The Web | 01DesignX

The design process is always one of discovery. When we design a product for the Web, discovery is an important part of how we determine what the product actually is. When you reach the end of a flow—the edge of the product—imagine a dot, a connection point. Now it's time to discover another dot, and so on.

Product Design for the Web - pearsoncmg.com

The product that you intend to sell through your website must be displayed in an attractive and clear fashion. The web design should be such that it emphasizes the overall display of the product. The images used to display the products should be of good quality.
